

# UNGA77

## Outcomes

### What did LAC countries request from companies to improve the state of the region?

In their statements at the UN General Assembly, heads of state and government of Latin America and the Caribbean pointed out the areas where **private sector action** is critical to **accelerating sustainable development in LAC**

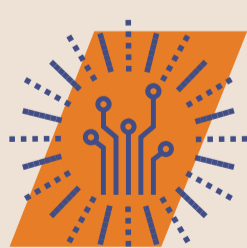

● Number of mentions per country (out of 33 LAC countries)

### 3 areas not considered by LAC countries in their demands to companies needed to accelerate sustainable development in the region:

Support for more and better data

Contribution to universalizing access to new technologies

Participation in the fight against corruption
